## **AMAZING CALCULATIONS**

Ek weet nie hoe presies hierdie syfers is nie maar al was dit wat hier genoem word, net, kom ons sê vyftig persent korrek. Was dit in elk geval menslik gesproke, 'n onbegonne taak vir iemand om sonder bonatuurlike hulp dit vir veertig jaar reg te kry. Al die tyd wat jy die verstommende syfers lees, moet jy ook onthou, dat wat vermag was, nie in ideale omstandighede plaas gevind het nie maar in die woestyn. Net voordat jy lees wat vir my gestuur was, moet jy net eers gou hierdie gedeelte uit die Woord lees.

Let veral op na [Deu 8:4](#).

**DEU 8:2** En jy moet dink aan die hele pad waarlangs die HERE jou God jou nou veertig jaar lank in die woestyn gelei het tot jou verootmoediging en beproewing, om te weet wat in jou hart is, of jy sy gebooi sal hou of nie.

**DEU 8:3** En Hy het jou verootmoedig en jou laat honger ly en jou die manna laat eet wat jy en jou vaders nie geken het nie, om aan jou bekend te maak dat die mens nie van brood alleen lewe nie, maar dat die mens lewe van alles wat uit die mond van die HERE uitgaan.

**DEU 8:4** ***Jou klere het aan jou nie verslyt en jou voet het nou veertig jaar lank nie geswel nie.***

### **Amazing Calculations**

Author Unknown

**Nov 1, 2005**

Do you think that Moses sat down and figured out the logistics of what God told him to do before he set out from Egypt with the liberated Israelites? If he thought about it even a little bit it shows how much faith He must have had in God to take care of everything. The very same God is at work today in our lives!

Consider that Moses led everyone across the Red Sea in one night. Scripture records that there were about 600,000 men on foot besides women and children. This could mean that there were close to 3-1/2 million people. Now if they went on a narrow path, double file, the line would be 800 miles long and require 35 days and nights to complete the crossing. So, to get it over in one night there had to be a space in the Red Sea about 3 miles wide so that they could walk 5,000 abreast.

Moses led the people of Israel into the desert... Now what was he going to do with them? They had to be fed, and feeding 3-1/2 million people requires a lot of food.

According to the U. S. Army's Quartermaster General, Moses would have needed 1500 tons of food a day, filling two freight trains, each a mile long. Besides, you must remember, they were cooking the food (not to mention for keeping warm, and if anyone tells you it doesn't get cold in the desert don't believe them!). Just for cooking this took 4000 tons of firewood and a few more freight trains, each a mile long and this is only for one day!!!

And they were for forty YEARS in transit!!! But God miraculously provided manna for His people. Just enough each day for that day. God can supply our needs too.

Let's not forget about water, shall we? If they only had enough to drink and wash a few dishes (no bathing!), it took 11,000,000 gallons EACH DAY-enough to fill a train of tanker cars 1800 miles long.

Think about this; every time they camped at the end of the day, a camp ground the size of Rhode Island was required, or 750 square miles.

Let's trust in God like Moses. Let's have courage as we face our "impossible" events in life.

***Judas 1:24-25** Aan Hom nou wat magtig is om julle vir struikeling te bewaar en julle sonder gebrek voor sy heerlijkheid te stel met gejuig, **25**. aan die alleenwyse God, ons Verlosser, kom toe heerlijkheid en majesteit, krag en mag, nou tot in alle ewigheid! Amen.*
